PRESERVING ORGOTTEN MEMORIES

This message may contain information that is confidential and/or legally privileged. It is intended only for the use of the individuals named as recipients in the message. If you are not an intended recipient of this message and would like to receive the DOOL in your inbox, please notify me immediately. I welcome articles, BIO's, stories, etc and certainly hope that all ASA Turkey Vet's will contribute and make the DOOL worthwhile. The newsletter started with the FOCK Rock Series, then it was the HOURGLASS Series and now its DAY OF OUR LIVES at the suggestion of Mike Findley (SP4, 05H, Det 4-4, 68-70, Rhinelander, WI). The news within the DAYS OF OUR LIVES is a great way to renew old friendships and attend the annual reunions.

On 6 July 2017 we were visited by our FRIEND Atakan Sobay from Houston, TX

Atakan drove all the way from Manvel, Texas to visit with another friend who lives in Huntington, PA. We were thrilled and happy to see Atakan who likewise enjoyed his short visit with us. Needless to say – Atakan was not pleased when we told him that we would not be attending the reunion in Gatlinburg, TN.

Judi Whitman

The husband of this pretty lady informs that she will not be attending the 2017 reunion in Gatlinburg because of a medical problem that is correctable. As past reunion goers know – Judi Whitman was always at the registration table answering questions and handing out reunion items. Judi says that she will be attending the 2018 reunion and will be at the registration table with me.

It was great to see Col. Whitlock in the latest ASA DOOL 295. He was my commanding officer during my stay at Det. 27. from 1965-1966 when I was the Finance Officer for the base. He was, without a doubt the best senior officers that i knew and one of the best bosses I ever had. He was very knowledgeable of the governing government accounting procedures, he had a great sense of right and wrong, a super sense of humor, a gentleman that I respected and a role model for my military and business career.

Sorry I will miss the reunion this year but will be on west for vacation and a family wedding. Have a great time Jim Crane

Hello all;

I presently live in Big Bear Lake, CA. I have been reading the DOOL for several years. Was in Det 4 from January 1960 to January 1961. Lived in Jamesway huts with the outhouses full of snow in the winter. Was in the Elint section. Have meet with my Bud at that time Keith Krause now living in Florida (this was 4 of years ago). We have both been trying to contact Mike Brannock who also was at Det 4 during this time. More stories may follow.

Dean - I was really looking forward to attending this year's reunion, which would have been my first ... I was in beautiful Sinop by the sea in 1965. However, my oldest son, who's 38, is getting married for the first time in September (date determined after I registered) and we are leaving on Monday, Sep 18th for a 10-day destination wedding trip. Please keep me on your mailing list ... I really hope to attend next year!

Elder - I haven't forgotten our conversation ... I'm slowly working on the BIO but the your comment to provide a "detailed" BIO is proving to be a challenge. 53+ "detailed" years as a SIGINTer would be a book but I'll find the right couple-of-pages balance. Friday, September 29th will be my last SIGINT day ... returning from the wedding with just enough time to out-process and say good bye. Thanks to all for everything you do to keep those memories alive. Larry Foster

GLASGOW, Harry, 059, Det 4, NO63-64, Manassas, VA., harry.glasgow@yahoo.com

Elder - I served at Det 4 as a 059 from November, 1963 until October, 1964. Most of my time was spent working a non-specific night shift preparing and transmitting the daily Station intercept report. This arrangement allowed me free time during the day.

Part of that time was spent operating as a DJ on KBOK. My tastes in music were not typical for a 24 year old in the mid 1960s, and as such my time at the station was not particularly memorable. Additionally, we had competition from the British pirate stations such as Radio Caroline, Radio Luxembourg, and others that broadcast the Beatles and other early rock stars, so KBOK's limited record collection didn't inspire a big fan following.

Steve Stubbs served as our engineer, as I recall. One of our other DJ's was another 059 named Bob Anderson who had professional training and experience as a radio

personality. I learned a lot about the radio business from him, but not enough to take it up as a profession. There are some funny stories draped over the KBOK experience that might be interesting some time.

Dan Taylor & Harry Glasgow

Two OLD ASAers get together to swap war stories at the Dunkin Doughnuts at Devens.... Both served at Det 4 and many years together at the ASATC&S at Devens. Harry was in Concord to attend a conference so he traveled to Devens to meet with Dan for an hour to share some memories....old

Sandra & I in front of the fountain on The Island at Pigeon Forge. There are shops all around and places to eat - Paula Deans. Also any chairs around the fountain where I enjoyed myself.

Hi Elder, I just got back from Sevierville, TN yesterday, after a week there with my daughters and their families. Went to Dixie Stampede, Paradise Island (Paula Deans Family Kitchen) , Sugarlands Visitor Center (Catlic (?) Falls), etc. I told my two daughters last Fall that I would rent a cottage at the beach or a cabin in the mountains this year and for them to pick a date and the place and Sandra and I would rent a place. The six of us adults and five grandsons had a great time. We scheduled this before the ASA Turkey Reunion location was announced.

It was questionable a week before we left as to whether Sandra and I would be going as I have been having a hell of a time with my atrial fibrillation. I went to the ER three times during May and June. The Dr. said there are hospitals everywhere and to just call 911. Medicines have not worked and I had a terrible allergic reaction to one of them. I am having my ablation procedure on August 7th.

It has taken me a long time to type this much. It's a wonder I haven't screwed up and lost it. Please call me and I will tell you about other places to see and stops some people might like to make on their way.

Just heard from Mike Comroe that we won't see you in sept. Hope your ankle gets better soon.. Get well my friend. Just talked to Mike Comroe, and am sorry to hear we will not be seeing you and Patty this year.. Hope you get well soon, and we can get together at next years reunion.

Also, a side note, that I am bringing some shirts with me, and if anyone needs one, have them send me an email with size and color. Even tho the shop is closed, all the embroidery equipment is at my sons and he will be glad to make any color or size for us. N Thanks, Max

Back to Sacramento for another week of training. I guess they can teach an old dog "new" tricks. Anyway, just wanted to let you know that I found the article relating to the turnover of Det. 27 to the Turks- also found a bunch of travel

orders, club stuff, etc. etc. I know you've got enough "stuff" to sort through, but I thought you might be interested in some of the memorabilia my wife wants me to throw away. There's an old Stars and Stripes describing John Glenn's trip and a Turkish rag I saved for some reason or another. Anyway, when I get back from Sac. I'll post it to you. Regards, Gule Gule and alasmaladik,

160: RUDELL, Dick RA19647399 E3-E5 058 Tk#4 Det 27, 29MY60-11JL62, (Linda), 11555 Killimore Ave., Northridge, CA 91328, 818-363-6567, dnl57ravenbird@yahoo.com - Elder - Sorry for my long absense (AWOL) from the computer - That's what happens when you have a full time job. Anyway, I have gathered some stuff I found while cleaning out old boxes, briefcases, etc. that may bring some memories back to some of the guys. I am sending it to you, U.S. Mail, so that, hopefully, you or someone who is not technologically challenged (like I am) can get it in the right format to share. One of the items is a news article from the New York Times that my brother sent me in 1967. It describes the ceding of our beloved Site by the U.S. gumment to the Turks. Stubby trees and all. I keep thinking of additional names in my pre-senior moments: Chuck Kepplinger (Charles?) He was a Sp 4 058 on Trick 4 who was a very good buddy of Robert "Jerry" Doyle, another SP4 058 on Trick 4 who was a transfer from Shemya, Alaska. He was from Olwein(?) Iowa and was talking about going CIA after his hitch was up. Don't know what happened to him. They were both there when I got there in late May, 60 and were sort of the mentors in the Comm Center to the new guys that arrived. (Larry Hull, Terry Braho, Don Norris, Gordon Lief, Larry Parker, Don Theriot). "Doc" Carlson, A.Z Simmons, and Mac Shoats were the honchos. Di dah, Di dah. I still remember the infamous signoff of one of my Ruskie 'men', RMJB 00117 SLD SLV SK SK.SK. Hmmm. Is that still a security breach after all these years. Remember the 'slide stick' ? It made a great fly whacker at the console while listening to Radio Luxemburg, BBC, and VOA while we were waiting for our 'men' to come up. Hope all is welll with you and your family. Good luck on the names.

Elder-

re:#295: Eric Balderson's wonder about Det 4.2 at Incirlik AFB in Adana

I have a few tales to tell about the place as S/A E-7, Ed Register and I were sent down from Det 27 to conduct a routine security inspection of the unit-- probably in the spring

of '64. We were privileged to experienced an unusual occurrence... maybe at Gatlinburg. It concerns the US Navy's Grumman "Iron Works" (very respectfully referred to as such by USN pilots) YEA-3A, maintaining radio silence, lack of a green "meatball" from the tower on a lazy Sunday morning, and the "go" signal-to-wheels up record broken as a result.

As to the shush-shush mission, I, being a hot-shot (alternate spelling optional) spook, memorized the TS mission to be recorded once we got back to Site 23. We were flying THY so I didn't want a hard copy which might get "lost." The idea was that I'd forget it once I wrote it down once withing the secure confines of our office at HQ building at the site. Do you know that to this day I can recall it? So much for mental the "DELETE" button!

Just as an aside, this morning I was getting an old towel out of a cabinet in the garage to be used for wash-ups in my little shop out there and noticed a mark on the hem- "SWJ." Danged if that isn't my laundry mark at the Site, circa 1963-4! That must surely qualify me as the Chief Of All Squirrels of this bunch. Oh, the towel's a little shabby around the edges but still servicable. William J. "Bill" Schulz

Ed Wynes – 1964

ANYONE REMEMBER ED WYNES?
Ed Wynes please contact me again at 724-471-4899

Mr Green, I am a ASA vet who served a tour of duty in Sinop from May 64 to Apr 66. I have been reading your monthly news letter I am interested in adding my name to the list of individuals who make comments. Ed Wynes,

Received the above email on 15 July 2017 and called Ed that evening.

Ed informs that the DRAFT was closing in on him and he heard that the Army Security Agency was the way to enlist. Thus he enlisted for ASA duty in June 1966 at Portland, OR and took basic at Fort Ord, CA. Then it was off to Pilgrim Country at Fort Devens where he was selected for ditty-bop training. Like many others - the dits & dahs were not for him and he was trained in non-morse and he was awarded the 05K MOS.

After Devens flew from NY to Paris – to Rome & to Esenboga, Turkey. Rode in back of a Deuce and a half to Det 4. Was assigned to a trick, but can't remember which one and only remembers a Tom Kulikowski (sic) during his tour on the HILL. Does remember KBOK. Did not participate in any sports at Det 4. Left Det 4 on a icky-pa-chut to Samsun where he flew home.

His next assignment was to Vint Hill Farms where he served until JN67 when he requested assignment to Vietnam. Was assigned to the 175th RR at Bien Hoa. There was no need for 05k's and worked in the COMM CTR as a 71L and was promoted to a hard stripe E5.

As Ed readily admits he can't remember anybody from his days in the ASA. Was married in 1971 to Tamela who passed away in December 2014

THAT'S ALL
